

AIRSCOUT
GIGA CHECK

YOU PROMISE GIGABIT SPEEDS.

NOW YOU CAN PROVE IT.

As the demand for faster networks grows, service providers must ensure their customers receive the speeds they pay for, but struggle to easily verify the service level agreements. The AirScout® GigaCheck offers service providers a quick and easy way to help validate their SLAs and meet customer expectations.

AIRSCOUT GIGACHECK TESTS:

Wi-Fi® Test

- Simple, One-Click Connection to Wireless Routers for Testing up to 1.3 Gbps
- Signal/Noise/SNR Measurements
- Transmit and Receive Success Rates
- PHY Rate
- Upload/Download/Ping

Ethernet Test

- Upload Speed up to 1 Gbps
- Download Speed up to 1 Gbps
- Ping

Heatmap Test

- Visualize Wi-Fi® dead zones in your environment.
- Easily translate Wi-Fi® measurement into an intuitive heat map.
- Available with purchase of AirScout® Heatmap license.

- Test List

AIRSCOUT GIGA CHECK

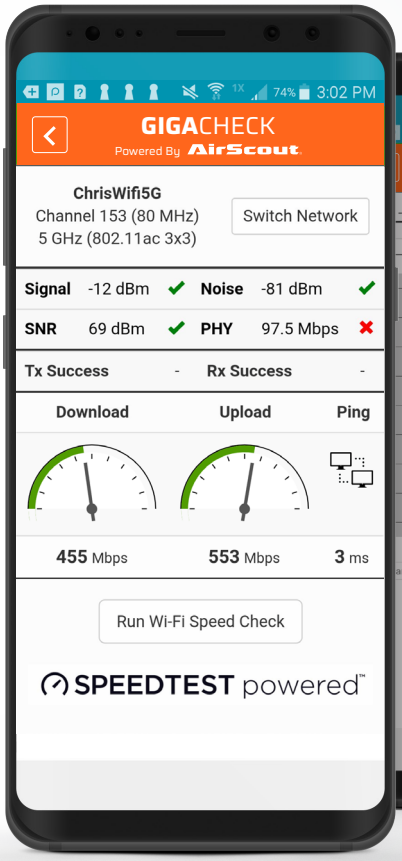
HOW IT WORKS:

The AirScout GigaCheck unit, controlled via smartphone app, connects directly to a customer's residential gateway. It then tests WiFi coverage and verifies the upload and download speeds of the wired Ethernet connection in real-time, all the way up to 1 gigabit. Technicians can also easily test WiFi speeds up to 1.3 Gbps from different areas of the home to ensure the customer is getting the performance they expect, where they expect it.

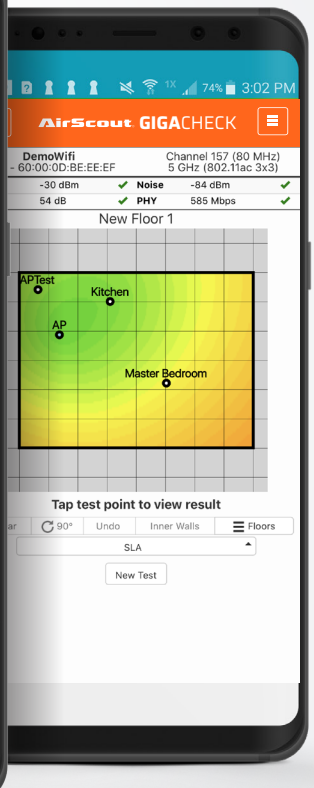
The intuitive user interface of the mobile app and cloud based reporting tool makes it easy to generate, view, and send reports - giving you and your customers and access to the most up to date information.

OTHER FEATURES:

- "Headless" Unit is Fully Integrated with Smartphone App (Android)
- Report Generation and Cloud Access
- Easy to Read Pass/Fail Indicators
- Powered by Industry Standard Speedtest® by Ookla®
- Rechargeable Li-Ion Battery



- Wi-Fi® Test Results



- Heatmap Location Test

ORDERING INFORMATION:

CAT. NO.	DESCRIPTION
AGC350-FT	Airscout GigaCheck Master Unit with charger
AGC-PWR	Charger,12V
ASB302	Softcase
AGC350-HMP	Airscout GigaCheck Master Unit w/ heatmap and charger
